KLING STUBBINS

FOR IMMEDIATE RELEASE

KlingStubbins' Michael Schwarz named one of the top 40 Under 40 building engineers in the country

PHILADELPHIA, PA – May 26, 2009 – KlingStubbins is pleased to announce that for the second year in a row, a member of its engineering staff has been honored by *Consulting-Specifying Engineer* magazine as one of the 40 building industry engineers under the age of 40 who stand out in their academic, professional, personal, and community achievements. This year, KlingStubbins' Associate and HVAC Engineer Michael Schwarz, PE, LEED® AP, is featured in the publication's May Specifier's issue.

During the past several years, the 31-year-old engineer has become a key resource in the firm's energy and cost modeling efforts to test strategies for LEED® project certification and to reduce building life-cycle costs and carbon footprints. His findings have been presented at several national conferences including 7x24 Exchange, Laboratories for the 21st Century, and the Engineering Green Buildings Conference.

According to Michael Ivanovich, editor-in-chief of *Consulting-Specifying Engineer*, "[40 Under 40] leaders really stand out in their profession while also achieving work-life balance and serving their communities. These 40 winners are the mentors of the future and are inspirational role models for young engineers and building professionals."

Last year, KlingStubbins' Ray Doyle, PE, LEED® AP, an Engineering Design Principal in the firm's Washington office, also received 40 Under 40 honors.

KlingStubbins provides professional services in all major disciplines within the realm of architecture, engineering, interiors, planning, and landscape architecture. The firm consists of more than 450 professionals in its Philadelphia, PA; Cambridge, MA; Raleigh, NC; San Francisco, CA; Washington, DC; and Beijing, China offices. Its areas of market focus and specialization include Corporate/Commercial, Government, Science + Technology, Higher Education, Hospitality/Entertainment, Institutional/Civic, Mission Critical, and Health Care. The company is a nationally recognized leader in sustainable design and an innovator in project delivery.

KlingStubbins can be found online at www.klingsubbins.com.
