

Allen L. Frakes, PE, joins KlingStubbins as new Engineering Design Principal

Allen L. Frakes, PE

PHILADELPHIA – April 23, 2007 – KlingStubbins is pleased to announce that Allen L. Frakes, PE, has rejoined the firm as an Engineering Design Principal in their Philadelphia office. In this role, Mr. Frakes will focus on high technology and mission-critical projects such as specialized research and development labs and data centers.

“Allen has a strong engineering background and is known for his emphasis on design and innovation. His diversity of project experience and solid management skills make him a valuable addition to the KlingStubbins enterprise,” remarked KlingStubbins’ Director of Engineering, Michael Lorenz, PE, LEED® AP.

During his 25-year career, Mr. Frakes has led the design of research laboratories, pilot process development plants, pharmaceutical and biomanufacturing clean spaces, data processing facilities, and corporate office buildings. Mr. Frakes is also an active member and speaker for industry associations such as ISPE (International Society for Pharmaceutical Engineering) and ASHRAE (American Society of Heating, Refrigerating, and Air-Conditioning Engineers).

KlingStubbins provides professional services in all major disciplines within the realm of architecture, engineering, interiors, planning, and landscape architecture. The firm consists of more than 500 professionals in its Cambridge, MA; Las Vegas, NV; Philadelphia, PA; Raleigh, NC; San Francisco, CA; and Washington, DC offices. Its areas of market focus and specialization include Corporate/Commercial, Government, Health Care, Higher Education, Hospitality/Entertainment, Institutional/Civic, Mission Critical, and Research and Development.

KlingStubbins can be found online at www.klingstubbins.com.
