KLING STUBBINS

Stubbins Associates Complex for MITRE Corporation Wins Award

CAMBRIDGE, MA - May 1, 2006 - The MITRE Center in Bedford, MA, a LEED Silver – NC certified building, designed by The Stubbins Associates, Inc. for MITRE Corporation, has received the Best New Workplace Award from the New England Chapter of CoreNet Global, the world’s premier association for corporate real estate and related professionals. The MITRE Center serves as a “town square” that brings together all major circulation routes on the campus and supports the company’s core functions.

“The Stubbins Associates is very pleased and gratified that the MITRE Center was recognized as an inspiring place to work,” said C. Ron Ostberg of The Stubbins Associates. “MITRE is proud of the fact that they have been recognized as one of the top 100 employers in the United States for the last four years, and in this project they challenged us to create a building that fosters innovation, collaboration and interaction for all their staff.”

In presenting the award at its 2006 Awards for Excellence dinner, CoreNet Global New England acknowledged the MITRE Center for a design that both facilitates staff communication and is environmentally friendly. The building has earned the LEED Silver – NC rating because of the solar panels that generate more than 29,000 kilowatt hours of energy per year. Its glazing and other insulation have lowered energy consumption by 35%, and its high efficiency plumbing reduces water consumption by 30%. The project also had 90% of construction and demolition waste diverted from landfill disposal.

ARCHITECTURE
